

CAFFEINE FINDER

Scrum Master: Eve Kontcho

Product Owner: Aaliyah Ware

Developers: Thien Vu, Elizabeth Schlamel, Mika Devillier, Khalil Abdullah, Treytan Williams

OVERVIEW

CAFFIENE FINDER

Caffeine Finder is an app that will help LSU students quickly locate nearby sources of caffeine, including cafes, coffee shops, campus dining locations, vending areas, and campus events offering caffeinated beverages. The product will place useful information in one convenient application so students can find options that match their location, schedule, preferences, and budget.

PRODUCT BACKLOG

Priority	Backlog Item	User Story	Planning Poker
1	Display caffeine locations	As a student, I want a list of nearby cafes, restaurants, and campus vendors selling caffeinated drinks so that I can compare my options.	20
2	Display location details and hours	As a student, I want each location profile to show its address, hour, description, so that I can decide where and when to visit.	5
3	Search by location name	As a student, I want to search for a location by name so that I can quickly find a specific cafe, restaurant, or campus vendor.	5
4	Display caffeine locations on a map	As a student, I want caffeine locations shown as labeled map pins so that I can compare where the available options are located.	8
5	Display current position on the map	As a student, I want my current position shown on the map so that I can use it as a reference for nearby caffeine locations.	13
6	Sort locations by distance	As a student, I want locations ordered from nearest to farthest based on my current position so that I can choose the closest option.	5
7	Show open or closed status	As a student, I want to know the current opened or closed status of the shop so I know if it is available at the time of search.	3
8	Filter to open locations	As a student, I want an “Open Now” filter to hide any closed locations so only the currently available options show in the search.	3

9	Provide navigation directions	As a student, I want to open turn-by-turn directions to a selected location so that I can navigate there easily.	20
10	Display drink menus	As a student, I want to view a location’s drink menu so that I can see whether it offers a beverage I want.	5
11	Filter by beverage type	As a student, I want to filter locations by coffee, tea, or energy drinks so that I can find my preferred beverage type.	4
12	Display dietary options	As a student, I want menus labeled “Dairy-Free” and other dietary options so that I can choose suitable drinks.	13
13	Display estimated drink prices	As a student, I want estimated prices easily accessible for drinks at each location so that I can make easy price comparisons. (dollar signs like google)	3
14	Filter by price range	As a student, I want to be able to find options within my budget with a price filter for locations so that I can choose a location I can afford.	2
15	Display estimated caffeine content	As a student, I want to be able to view the estimated caffeine content of beverages at a location so that I can choose based on my personal consumption/preference.	5

16	Display campus caffeine events	As a student, I want to be able to view upcoming campus events providing caffeine in their drink options so that I can plan which events to attend.	40
17	Display event details and costs	As a student, I would like to see information on these events such as if there is an admission price so that I can plan for the cost.	20
18	Identify and filter free events	As a student, I would like free events to also be displayed and Free to be included on the price filter so that I can find events that cost nothing to attend.	2
19	Display student discounts	As a student, I want locations to show student discounts and eligibility requirements so that I know how to receive the lower price.	13
20	Filter by Wi-Fi availability	As a student, I want to filter location with free Wi-Fi so that I can find a place to study online.	2
21	Filter by seating availability	As a student, I want to filter for locations with customer seating so that I can find a place to stay and study.	5
22	Filter by outlet availability	As a student, I want to filter for locations with electrical outlets so that I can charge my devices while studying.	15

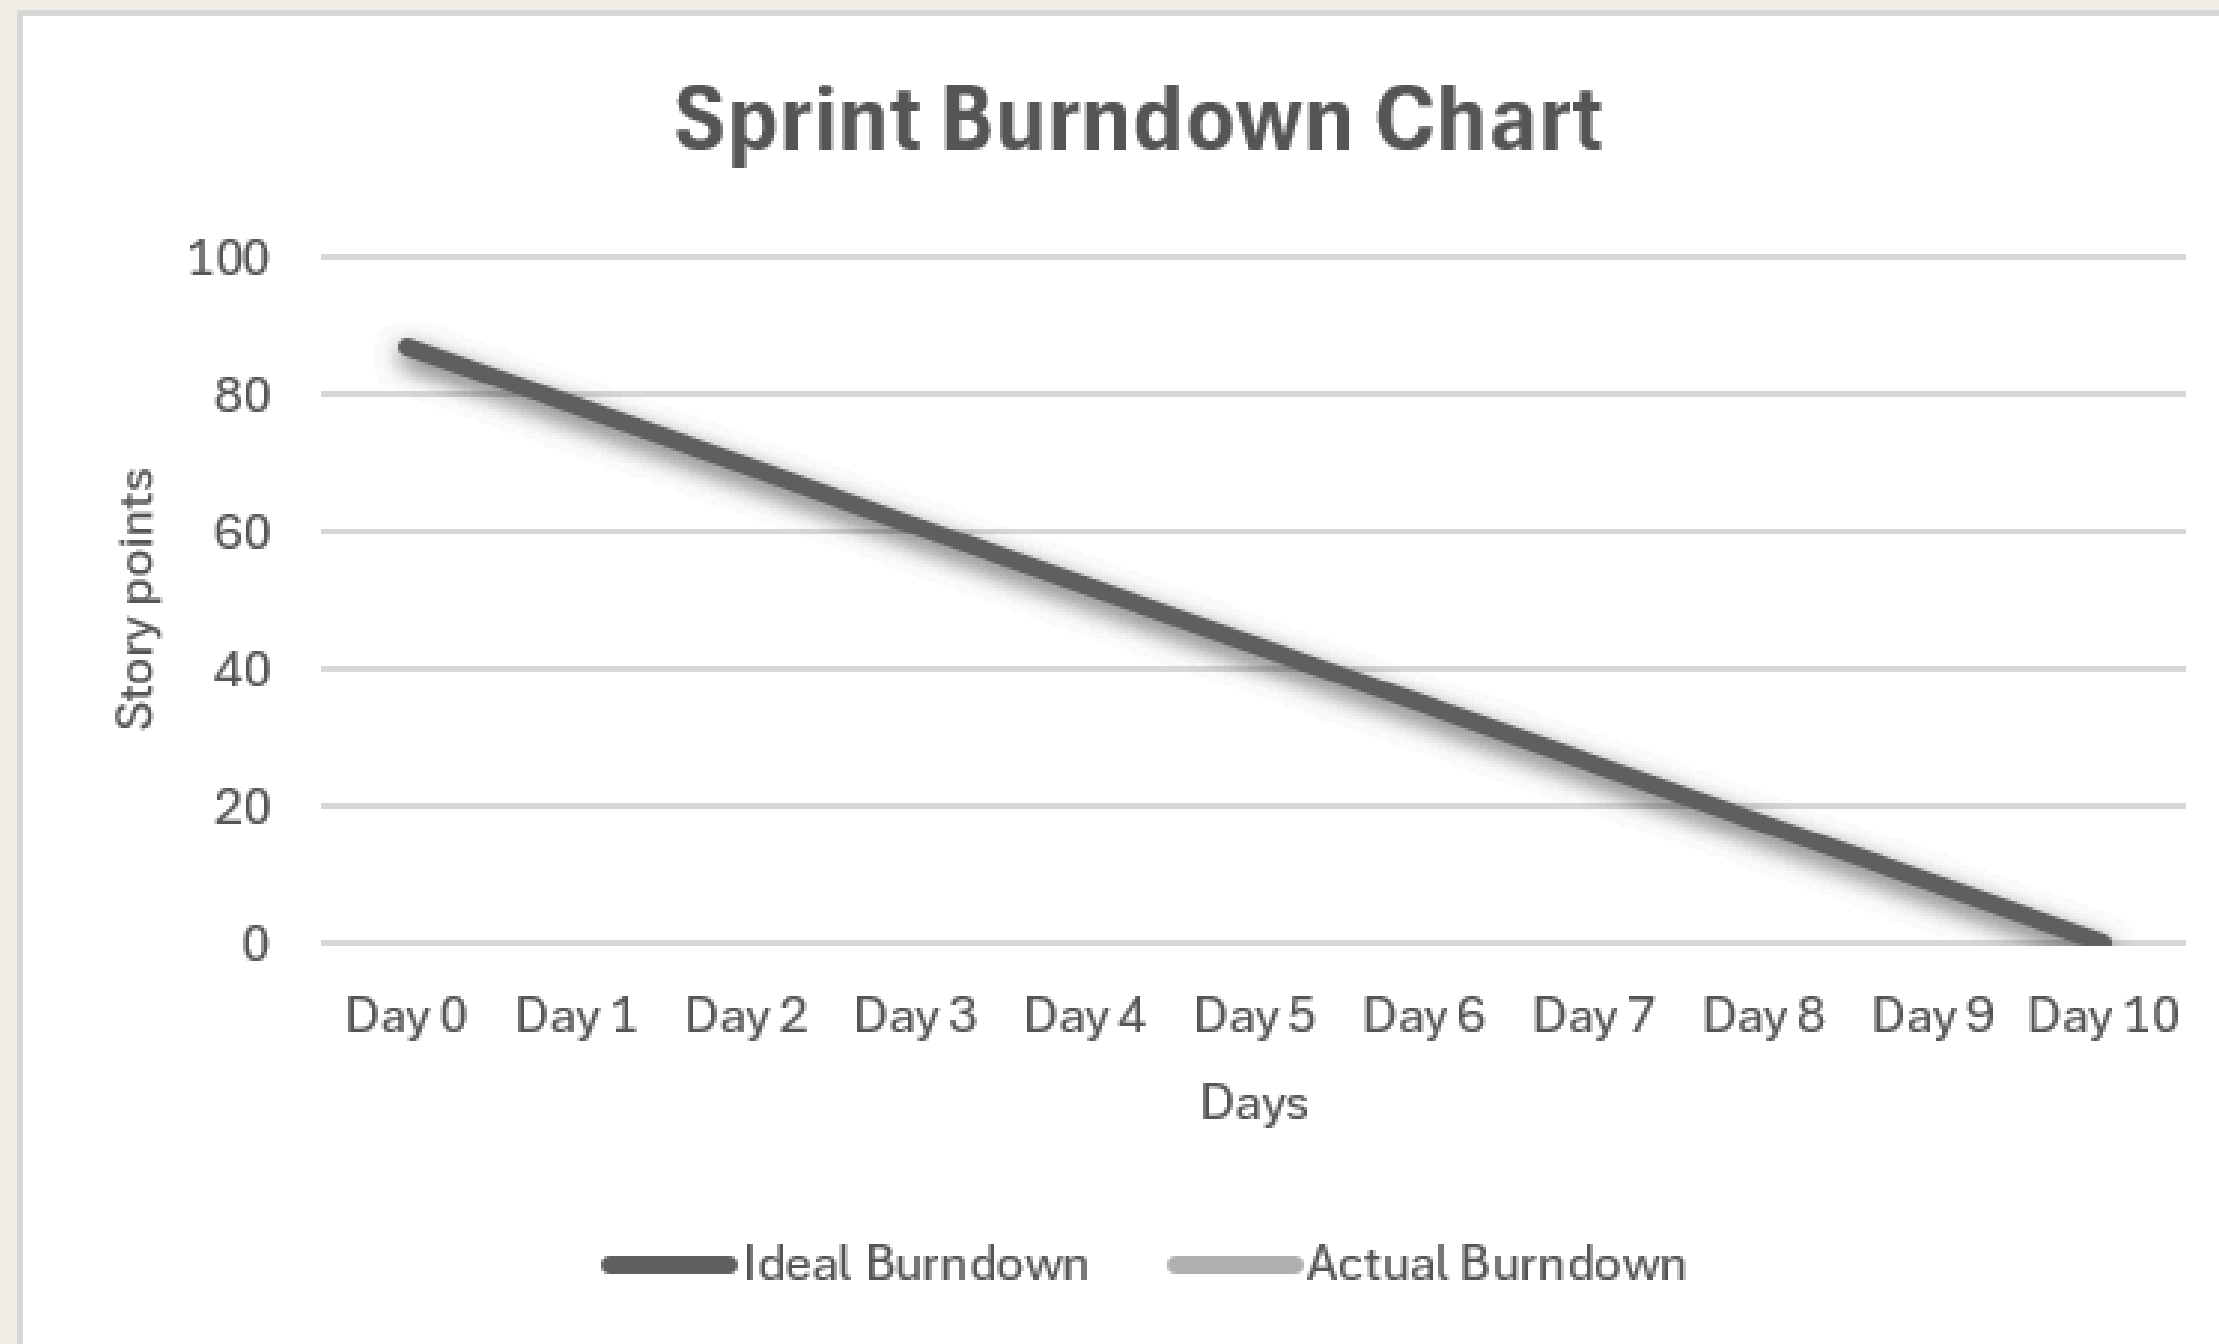

23	Save favorite locations	As a student, I want to save locations so that I can quickly access places I may visit again.	3
24	Save campus events	As a student I want to save caffeine events so that I can keep track of the events I plan to attend.	3
25	Receive event reminders	As a student, I want to get a notification before a saved caffeine event starts so that I don't miss events I planned to attend.	5
26	Rate locations	As a student, I want to give a location a star rating after I visit so that other students can quickly see which spots are worth going to.	13
27	Review locations	As a student, I want to write a review about a location's drinks, prices, and study space so that other students can make better decisions before visiting.	2
28	Submit a location or event	As a student or campus vendor, I want to submit a new caffeine location or event with its details so that the app stays up to date with options that aren't listed yet.	13
29	Review submitted information	As an administrator, I want to approve, reject, or edit submitted locations, events, and reviews so that the information in the app stays accurate and trustworthy.	0.5

SPRINT BURNDOWN

RETROSPECTIVE

WHAT WENT RIGHT

- Writing the features and user stories
- Planning poker discussion
- Team dynamic & alignment
- Meeting productivity

WHAT WENT WRONG

- Overlapping features in Backlog
- Difficulty writing user stories for the more complex, technical features
- Communication channel

HOW CAN WE IMPROVE

- We can improve how we prioritize the backlog by getting a better grasp of the technical details for each feature beforehand
- Be more specific with the functions of each backlog item/user story.

THANK YOU
